ABOUT US

AGM Organics was founded in 2019. AGM organics involves in the development and manufacturing of chemical-free organic products. We are all set to contribute to the farming community to ensure sustainable development. AGM Organics use the power of leading-edge science and technology to save the earth and improve the soil around the world. Our goal is to provide innovative inputs for the agricultural sector, giving utmost importance to quality and efficiency first, ensuring profits for farmers and protecting the health of the soil.

We aim to provide ongoing research and deliver results-based products based on the changing needs of farmers. Our **'Farmer First'** approach, quality focus and consumer connect initiatives have helped in gaining farmers' trust and have established **'AGM ORGANICS'** amongst the most trusted brand to farmers.

ABOUT FOUNDER

Rtn. A.Andi is the founder & chairman of AGM Organics. He is entrepreneurial with a distinct personality. Rtn. A. Andi established **IMAYAM EDUCATIONAL INSTITUTIONS** in 2004 with a vision to enable young adults to access world class education and knowledge. Moreover, he established during the last decade Imayam Trust (**Imayam Institute of Agriculture and Technology**), MB Blue Metal and AGM Construction.

Rtn. A. Andi is the President of Kurumba Associate and an active member of the Rotary Club. His urge towards farming and agriculture paved the way to start AGM organics. His vision is to provide chemical-free quality food and also to increase the incremental income of the farmers and reduce unemployment.

OUR VISION

AGM Organics aims to develop and promote **Organic Products** to rejuvenate soil fertility and get maximum benefit from farming

OUR MISSION

Providing Organic Products to energise a holistic Farming System

OUR FEATURES

Innovative products key to Sustainable Farming

Improve soil fertility

Induce natural disease resistance

Stimulate consistent immunity development.

Induce tolerance to biotic and abiotic stress

Products for all crops & all seasons

Improve Quality and Quantity of final products

GO GREEN

AGM GREEN GOLD GREEN LEAF PLUS GREEN STAR PLUS

Make your Farming Healthy

- ▶ Humus is a natural produce. Humus is formed through the chemical and biological Humification of plant and animal matter through the biological activities of micro organisms.
- ▶ The best source of humic acids are the sedimentation layers of soft brown coal & Natural sources.
- ▶ AGM Humic products acts upon the physical, chemical and biological properties of the soil.
- ▶ AGM Humic products are improving both soil structure and fertility.

USES

- ▶ Boosts plant metabolism and cell division.
- ▶ Mobilizes nutrients from soil to plants.
- ▶ Enhanced rate of photosynthesis & stabilize P^H.
- ▶ Increased soil aeration and beneficial microbial activity.
- ▶ Increases water retention rate.
- ▶ Helping plants to resist drought resulting higher yields with best quality.

CROPS

Recommended for all types of Crops :

Fruit trees , Vegetables, Plantation and Ornamental Crops

Best Color & Taste

Improved Shelf Life

Improved Aroma & Colour

High Weight & High Oil Content

Residue Free Rice
